## SUMMARY

I aim to build a stable and successful career as an efficient professional by continuously updating my skills and knowledge. I am eager to contribute to the progressive growth of a dynamic organization and work in an environment that encourages both personal and professional development.

## EDUCATION

**Bachelor of Computer Applications**, A.S.Patil College of Commerce(Autonomous), Vijayapura. 2021-2024  
Rani Channamma University,Belagavi

**Pre-University (PUC)**, Shri Satya Sai Baba PU College, Vijayapura. 2019 - 2021  
Department of Pre-University Education.

**SSLC**, Government High School Savanahalli, Vijayapura. 2016 - 2019  
Karnataka Secondary Education Examination Board.

## EXPERIENCE

**Full Stack Python-Intern** May 2024 - June 2024  
CNC Web World *Vijayapura*

- Developed interactive web applications using HTML, CSS, JavaScript, and Python.
- Built a web-based Heart Disease Prediction system incorporating machine learning models (CNN, SVM, XG-Boost).
- Integrated user interfaces for inputting ECG images to generate prediction results and report.
- Collaborated on back-end development, ensuring smooth interaction between the front-end and machine learning process.

## PROJECTS

**Heart Disease Prediction.** Developed an application for predicting heart disease using ECG images, leveraging CNNs for accurate image analysis. The system includes automated report generation for detailed insights and features a user-friendly web interface, enabling easy access for both patients and healthcare professionals. Additionally, the application offers a dedicated heart disease prediction portfolio, allowing patients to monitor their health and contact doctors for inquiries through the platform.

## PERSONAL INFORMATION
